EXAMPLE
No. 3.

As in everything else, money saving
is more successfully accomplished
when a definite plan is followed. If
your earnings are \$100 monthly you
can afford to save \$10 from each sal-
ary check. Follow this plan and you
will attain the following results:

End of One Year \$122.42
End of Two Years \$249.76
End of Three Years \$382.26
End of Four Years \$520.11
End of Five Years \$663.53
End of Ten Years \$1,472.43
End of Twenty Years \$3,660.76

Our Term Savings Account, which
pays 4% interest, compounded semi-
annually, is the best medium for the
systematic saver. The above figures
are based on this form of deposit.

Safe Deposit Boxes

HUSBAND SAVED
HIS WIFE

Stopped Most Terrible Suffering
By Getting Her Lydia
E. Pinkham's Vegeta-
ble Compound.

Denison, Texas. — "After my little
girl was born two years ago I began suf-
fering with female
trouble and could
hardly do my work.
I was very nervous
but just kept drag-
ging on until last
summer when I got
where I could not do
my work. I would
have a chill every
day and hot flashes
and dizzy spells and
my head would al-
most burst. I got where I was almost
a living skeleton and life was a burden
to me until one day my husband's step-
sister told me I would not last long
and told him to get my medicine. So he
got Lydia E. Pinkham's Vegetable Com-
pound for me, and after taking the first
three doses I began to improve. I com-
menced its use, and I have never had any
female trouble since. I feel that I owe
my life to you and your remedies. They
did for me what doctors could not do
and I will always praise it wherever I
go." — Mrs. G. O. LOWERY, 419 W. Mon-
terey Street, Denison, Texas.

If you are suffering from any form of
female trouble, get a bottle of Lydia E.
Pinkham's Vegetable Compound, and
commence the treatment without delay.

THE CITY AND ENVIRONS.

EVENTS BRIEFLY TOLD

To Have Social Hour.

An attractive musical and literary programme has been arranged for the meeting of the Kansas Association in the Times Assembly Hall tomorrow evening. The annual picnic of the organization will be held at Baysmore Grove, August 4, 5 and 6.

The Colorado Society will have a meeting in the Times Assembly Hall tomorrow evening. The annual picnic of the organization will be held at Baysmore Grove, August 4, 5 and 6.

A meeting under the auspices of the Women's Booth-for-Senator Club will be held at 3 o'clock this afternoon in the parlors of the Hotel Clark. Dr. Jessie A. Russell is chairman of the organization and its headquarters are in Rooms Nos. 428 and 429 Security Building.

With faith in the cunning of a fortune teller, who says that her nephew is in or near Los Angeles, Mrs. E. J. Greer, No. 397 Curtis street, Abingdon, Va., has written the Times asking it to help her find her nephew, "Tommy" Christopher, a Spanish-American War veteran, from whom she has not heard for fifteen years.

Plans for the Advertising Men's annual picnic, which will be held at Ocean Park, Thursday evening, have been completed. The advertising men and their wives and guests are to leave the Hotel Clark by special automobiles at 5:15, 5:30, 5:45 and 6 p.m. Dinner will be served at the Breakers Cafe and the Chamber of Commerce of Ocean Park will furnish the entertainment.

A Federal civil service examination for the position of surveyman with the engineering department at Los Angeles Harbor will be held on August 5. The examination will be open to all citizens of the United States. Application blanks may be had by addressing the secretary of the board of civil service examinations, engineering department, room 721 Central Building. The salary is \$78 a month.

SO SAD!

MAY HAVE TO WEAR READY-MADE SUITS.

YOUNG MILLIONAIRES FACING TERRIBLE CONTINGENCY.

Their trunks are somewhere in the wilds of Canada and if they don't turn up today the youths fear they must buy some store clothes.

Somewhere in the wilds of Canada are the trunks of five sons of a financially prominent Philadelphia family and one named New York professor. They have been there two weeks. Meanwhile the said sons and the professor, minus everything but tickets and the clothes they wear, have been traveling steadily for two weeks wearing the same clothes.

They arrived at the Alexandria last night. If today there is no favorable response to the pointed telegrams sent to a Canadian railroad, there is every probability the young millionaires will buy and wear their first "hand-me-downs."

"We started from Philadelphia July 1," said Prof. Robert Stannard, B.A., in charge of the manual training department of the public schools of New York City, who is conducting the party, "on what was supposed to be a combined educational and pleasure tour of America. It has certainly been educational all right, but since we lost our trunks at Montreal we are almost lost in the pleasant features."

"We came near losing three members of the party the next day," he continued. "The train started while they were taking rural pictures from the top of a near-by hill, accompanied by three young ladies they met on the train. While they managed to get on the last car, the natives were treated to one of the finest displays of hostility and ingenuity in the history of the world. Since then we haven't lost anything but weight and our tempers."

The boys are high school and university students who decided to make the trip while at Camp Kennebec, Me., where Prof. Stannard also

CELESTINS VICHY

Not Genuine without the word CELESTINS

passing his vacations. They have toured Canada, Washington and Oregon and are now en route to Yellowstone Park via Salt Lake City. They expect to return by way of Chicago in time to reach Philadelphia August 14.

Members of the party are Benedict Gimble, son of a noted department store man; Elias Wolf, whose father is a member of Wolf Bros. manufacturers of paper specialties; Walter and Wilton Rosenau, who expect to assume management of R. Rosenau & Company's textile factories some day; Edward L. Aloe, whose father is secretary and treasurer of the A. R. Kirchbaum Clothing Company, and Prof. Stannard.

Members of Church Society Hear Reports for the Year. The annual report of the Church of St. Vincent de Paul held their annual report yesterday at St. Joseph's Church. Thomas McKeever, president of the society, read his annual report, which shows that the society assisted 415 poor families in this city during the past year. A mass was celebrated by Rev. Theophilus Richard, who preached a sermon.

Following the religious ceremonies, breakfast was served in St. Joseph's Hall by the Christian Mothers of the parish. The next general meeting of the society will be held December 18, at St. Cecilia's Church.

CRASH HURTS WOMAN. Shock When Auto Collide Throws Her Against Windshield. Mrs. C. A. Pettit of No. 3700 Woodlawn Court was painfully injured at 3 o'clock last night in an automobile accident on the Long Beach boulevard. Mrs. Pettit was in a car with her husband and their child when the machine was struck by another driven by M. E. Hall of this city.

Mrs. Pettit was thrown against the windshield and her right hand was broken by glass. She was removed to the Dr. Preston Home Hospital at Huntington Park for treatment. Her husband and the child were not injured. Mr. Hall's automobile was slightly damaged.

DEATH AFTER LONG ILLNESS. T. J. Wright, a retired business man who was well-known in this city, died yesterday morning at the Long Beach Hospital, following a prolonged illness. He was 74 years old and lived at the Union League Club.

BUSINESS BRIEVITIES. (Advertising.) Miss Ida B. Lindley will reopen Marlborough Preparatory School, No. 414 36th street, (corner Chester Place), Tuesday, September 12. Telephone 21574. The principal may be seen daily between 9:30 a.m. and 12 m. at 2619 South Figueroa street. Kathryn Montreuil Cook's School of Music reopens Tuesday, September 12, No. 2619 S. Figueroa street. Telephone 21574.

For quick action drops answers to Times "lines" in Times liner boxes in downtown office buildings. The locations of the boxes are printed in the first column of the Times "line" section.

Hair and skin specialist: hair stopped falling in three treatments, dandruff positively cured. Katherine McDowan, 533 Con. R. Bldg., Fl. 467. The Times Branch Office, No. 619 South Spring street. Advertisements and subscriptions taken.

SHORTCUT'S NIECE DIES AT NEWPORT.

NEWPORT (R. I.) July 23.—Mrs. Vesta Shortcut, wife of Maj. Henry C. Davis, U.S.M.C., died yesterday at the Newport Hospital from pneumonia, which developed after the extraction of a tooth two weeks ago. She was in her thirtieth year.

Mrs. Davis was the daughter of Mr. and Mrs. Charles Shortcut of San Jose, and niece of Mr. Samuel Shortcut of San Francisco. Two years ago she was married to Mr. Emilio Brusieri, now living in Paris, son of the late Mr. and Mrs. Brusieri and brother of Mr. Louis A. Brusieri, who was married to Maj. Davis.

WOULD REMOVE ELY AS RECEIVER.

SANTA FE (N. M.) July 23.—A petition asking the removal of Ralph C. Ely as receiver of the New Mexico Central Railroad and the appointment of a successor, was filed in the District Court yesterday by the bondholders. The petition claims the road has been operated at a loss of 40 per cent. during Ely's "extremely bad" management.

The road extends 114 miles from Santa Fe to Torrance, N. M. The court ordered Ely to show cause August 14, why he should not be removed.

SECOND PRIMARY IN ORDER.

NOME OF SIX TEXAS CANDIDATES FOR SENATOR RECEIVES MAJORITY.

(BY A. P. NIGHT WIRE.) DALLAS (Tex.) July 23.—A second Democratic primary will be necessary for the nomination of a United States Senator to succeed Charles A. Culberson. This was made certain tonight when returns from more than half of the 421,000 votes cast yesterday showed no one of the six candidates with a sufficient lead to give him a majority.

The early returns favoring submission of a constitutional amendment for prohibition was declining steadily as results were received from "wet" counties.

TWO ARE KILLED IN FREIGHT WRECK.

(BY A. P. NIGHT WIRE.) SIOUX CITY (Iowa) July 23.—Two men were killed and thirty injured when a Milwaukee freight train loaded with prospective harvest hands was derailed twelve miles north of Tripp, S. D., today. The cause of the accident has not been determined.

50,000 Hobart M. Cable Pianos and Player Pianos have been sold—yet there has been no spectacular advertising in marketing the product of their factories—no sensational selling campaigns—just one single force has done it—Quality. Unequaled Values at Their Price! Uprights \$350 Players \$650 Beautiful new models now on display. Convenient Terms Arranged We unhesitatingly endorse the Hobart M. Cable piano and guarantee it to be the best value, for the price, of any piano on the market. Investigate other makes first—then you will better appreciate Hobart M. Cable quality. FRANK J. HART SOUTHERN CALIFORNIA MUSIC COMPANY 233-234 SOUTH BRUNSWICK, LOS ANGELES BRANCHES: Pasadena, Riverside, San Diego

SHOW RICHES AT OUR DOOR.

Santa Fe Official Compiles Report on Resources.

Deposit of Grinding Pebbles Found at Encinitas.

Infinite Riches of Our Back Country are Revealed.

Showing the vast mineral resources of the Southwest, a report on the metallic and nonmetallic deposits along the Santa Fe lines in California and Arizona has been completed by J. W. Glasgow, traveling freight and passenger agent, for the use of the road's industrial department. The report makes information available that is expected to lead to much industrial development.

Mr. Glasgow's researches cover thirty or more deposits of greater or less value, ranging all the way from ferris marble to Yucca methydenum. Los Angeles capitalists already are developing some of the possible sources of wealth which the railroad man tells about and it is expected the facts he has obtained will lead to further investment in enterprises along the Santa Fe.

FOR BUILDING.
Mr. Glasgow states that at Ferris, a deposit of granite is being developed and used in Los Angeles. Potash, deposits of 75,000,000 pounds are located at Cadiz, and there is much of this material at other places in this State and Arizona that might repay examination, according to Mr. Glasgow's report.

The fact is brought out in the report that at Mayer, Ariz., is a deposit of quartz, which purports in quality that mined extensively in Paducah in Lower California. At Yuma occurs a deposit of molybdenum and a company is erecting a reduction works in Los Angeles to handle the output.

The red sandstone, which is a feature of the Federal building here, came from Flagstaff, on the Santa Fe, and material for other public buildings has been furnished from that source. Los Angeles companies receive a good deal of the crude soda produced on the desert and Mr. Glasgow states that a deposit of possibly future value is located at the end of Danby Lake, in the neighborhood of Ward or Milligan.

Along the Santa Fe, in the hill, is one of the best-developed clay districts in the United States. The major portion of the shipments come to Los Angeles for use in the manufacture of fire brick and the San Diego plant of the company is located on clay beds at Ladrillo. A large deposit of clay suitable for high-grade pressed brick is located about six miles from Cardiff. At El Toro and Corona, are other beds and at Pasadena, a deposit of an immense supply suitable for the manufacture of pressed and common brick.

HUNT PEBBLES.
The European war led to a search in this country for grinding pebbles. The only place where they are so far located is at Encinitas, Cal., where immense quantities of pebbles are deposited upon the beach, from which an output is secured that compares favorably with foreign pebbles in hardness and wearing quality.

Southern California also produces quantities of gypsum suitable for wall plaster. The Corona mine is perhaps as well known as any, but similar deposits are located at Taft, Midland and Shafter. An Amboy there is an extensive deposit which is used by a large plaster factory.

WAR HELPING SPAIN.
Spain has become, since the European war started, one of the most cosmopolitan nations of the earth, according to Dr. William R. Twilley, who arrived at the Roosevelt Hotel from Madrid, accompanied by his wife, their son and Mrs. Rose M. Durkin. They made the trip via Panama and expect to remain here several days.

Dr. Twilley, formerly a Colorado dentist, has lived in Spain the past ten years. He was in Russia when the war broke out and experienced considerable difficulty in getting his wife and son out of the country. When they finally got back to their country, which was then under Russian occupation, they found the influx of European refugees had brought the country to a standstill.

"Now," he said last night, "a man may imagine himself in Paris, London, Petrograd or almost anywhere else, by simply looking at the different nations represented. The war has helped Spain considerably by increasing the price of goods we export and stimulating industry."

He says one of the sporting events of the day in Madrid is betting on the number of submarines that will pass during a specified time. From the observation of the coast, he says, the submarines are plainly visible and variable fleets of the undersea craft pass periodically.

BIG MONEY IN DATES.

Coachella Man Sells Offshoots at a Rate of More Than Hundred Thousand Dollars Per Acre; New Methods Build Profit.

One hundred and thirteen date offshoots were sold yesterday by H. L. Lynch of Coachella to C. E. Cook, a ranchman of the same district, for \$12,000. These offshoots were all set in an offshoot house 14x24 feet in size, on Mr. Lynch's ranch two and a half miles from Coachella, and were all contained in this space when sold. So the proceeds from the sale are at the rate of \$115,955 per acre.

They were all of very choice varieties and were sold just a year and two days after the first plant was set in the house.

Owing to the employment of a new method of propagation, only three of all were considered as first-class. Two of these were in the doubtful class, whereas by former methods the loss frequently exceeded 50 per cent.

Mr. Lynch has had exceptional success also in growing seedling date plants. The soil in that locality contains clay, silt, shell and other substances, which he has found remarkably. Mr. Lynch declares there is little land in the world so well suited for growing "veritas," a choice variety of dates. He credits a great advance soon in cultural knowledge and methods.

Questionable.
SAYS HENEY SPENT CASH NOT ALL HIS.
FORMER LAW PARTNER SUES TO GET HIS SHARE.

Alleges the "Progressive" Collected and Expended Thirty-seven Hundred Dollars to Which He had no Right—Pleaded Inability to Repay the Amount.

James F. Farrar, attorney and former partner of Francis J. Heney, filed suit against Mr. Heney Saturday to recover \$375.91 which he claims as his share of the profits and which he says Mr. Heney collected and spent.

Mr. Farrar, who files the suit as his own attorney, states the partnership between himself and Mr. Heney was formed October 1, 1915. The division of profits was two-thirds to Mr. Heney and one-third to Mr. Farrar. On December 1, 1915, William E. Johnson was admitted nominally into the partnership, the expressed agreement being that Johnson's share in the partnership was in no way to affect the existing co-partnership. Mr. Johnson's interest being such that he was to be paid for his services.

Mr. Farrar declares that November 12, 1915, the co-partnership was dissolved and the partnership was liquidated and collectable liabilities distributed and collectable assets were deposited upon the books of the partnership.

Mr. Farrar alleged that Mr. Heney admitted he had collected the fee, in full, "but that he, the defendant, had already spent the money on the case and was without means to pay plaintiff his partnership share therein."

Pacific Electric.
RUBBER-TIRED ELEVATED IS NEARING COMPLETION.

LOS ANGELES' noisiest elevated, the only one in the world, will be completed by September 1, it was announced yesterday by Pacific Electric officials.

Running from the trolley line's Main-street station to San Pedro street, the elevated, which is being constructed at a cost of \$210,000, will be the chief unit in a loop system to relieve the congestion on Main and Seventh streets. The elevated will carry seven tracks from the station to Maple avenue, and two from there on to San Pedro street.

FOR PRACTICAL BABY WELFARE.

State Education Center to be Located in Los Angeles.

Will Give Free Instruction to Every Mother.

Headquarters are Opened for Their Registration.

Registration headquarters were opened during the past week in suite No. 518 Chamber of Commerce Building by the Executive Committee in charge of the installation of a State educational center here to offer mothers a course of instruction on the care and development of the child. It is planned to open this center early in September.

Perhaps no other city in the United States has so many educators willing to give their services to a good cause as Los Angeles. And when the local interest, although the Federal government, which is promoting these centers and this visual type of education, is furnishing graphic charts on the composition and preparation of food and other phases of child conservation.

PERMANENT EXHIBIT.
In conjunction with the educational center in Los Angeles there will be a permanent exhibit of more local interest, although the Federal government, which is promoting these centers and this visual type of education, is furnishing graphic charts on the composition and preparation of food and other phases of child conservation.

The second function is that of social service. This department will be under the immediate supervision of Miss Helen M. Wright, with an advisory committee composed of the presidents, or their appointees, of the child-welfare organizations. Through this department will be disseminated a standardizing institutional and public care given the child throughout the State.

With the improvement of Dayton avenue, the campaign for the parking of both banks of the Arroyo Seco, from the place where the stream empties into the Los Angeles River, to the northern city limits, is expected to be given an impetus.

PROSPERITY.
As each mother registers, she will nominate a child, choosing the one with whom she has the closest relationship. The five divisions cover all ages from birth to 15 years old.

The physical and mental examinations of the children will be conducted in conjunction with the educational center, under the supervision of Dr. Louis M. Richter of Los Angeles and a staff of nurses and physicians and public health nurses.

Perhaps the most important movement has received universal support from the county and city administrations. It is declared by the number of local sugar men that the total area planted to sugar beets in California this year is not far short of 200,000 acres, as compared to 150,000 acres in 1917, 150,000 acres in 1916, and 125,000 acres in 1915.

In the Chico district alone the total area in beets this year is about 4000 acres, a noticeable increase over the acreage of last season. In the Chico and Oxnard districts, together, beets from a total of close to 10,000 acres will be raised and made into sugar and several by-products.

It would be safe to say, sugar beet men assert, that the 1918 crop of sugar beets raised in California will be 20 to 30 per cent. greater than the crop last year.

For the far future, the grower is concerned, they are asserted, are likely to be higher than ever before in the history of the sugar beet industry of the West. Whereas, in 1912, 1913 and 1914, the average price paid the producer was about \$8 to \$10 a ton, and in 1915, \$10 to \$12 a ton, most of the growers are now getting \$15 to \$18 a ton.

After being treated at the Receiving Hospital, Cummings was taken to the Clara Barton Hospital, where it was said last night his condition was very serious.

The actor's groans were first heard by Mrs. Catherine Fisher, a maid at the Santa Monica Hotel, who called J. R. Eaton, a clerk, who telephoned for the police ambulance.

Before he was taken to the hospital, Cummings regained consciousness for about ten minutes, but was unable to disclose the cause of his condition, which immediately preceded the accident.

Scooping Out a New Route Northward.

Starting the Dayton-avenue paving job, by removing the line of ancient palms and antiquated curbs and gutters that clogged one of Los Angeles' narrowest streets. This avenue is to be paved from Avenue 29 to its intersection with Pasadena avenue.

START REMODELING OF WASP-WAISTED AVENUE.

ASSURING a new short cut to the growing Garvanza-Bagley Rock district, work was started last week on the widening of Dayton avenue, preparatory to paving. The work is being done by the property owners, under the Vrooman act.

At the present time Dayton avenue is one of the narrowest streets in the city, being even too narrow for a street car to pass a vehicle at the curb. Under the improvement plan, it will become one of the widest streets in the city, as well as one of the most slightly.

With the improvement of Dayton avenue, the campaign for the parking of both banks of the Arroyo Seco, from the place where the stream empties into the Los Angeles River, to the northern city limits, is expected to be given an impetus.

CONFERENCE.
METHODISTS WILL TALK EFFICIENCY.
DENOMINATION'S LEADERS TO GATHER FRIDAY.

Morning Programme to be Devoted to Spiritual Side of the Question: Afternoon to the Business Side—Reception for Bishop in the Evening.

Leaders in Methodist church work in Southern California are to gather next Friday at the First Methodist Episcopal Church for a conference on church efficiency. This event is expected to be one of the most important of the Methodist conference year.

Morning and afternoon sessions will be held. The morning session will open at 10:15 o'clock, and the general subject will be "Spiritual Efficiency." The afternoon session will open at 2 o'clock, the subject being "Business Efficiency."

Among the speakers during the forenoon will be Dr. Harcourt W. Peck, Rev. B. F. Cowell of Fresno, F. A. Powell of Hollywood and N. G. Fekner of Pasadena. In the afternoon there will be addresses by A. J. Wallace, Egerton Shore, E. Guy Talbot, Rev. C. D. Lewis and Frank B. Wallace.

At noon there will be a special service, when Bishop Adna W. Leonard will speak on "The Efficient Church."

Friday evening a reception will be tendered by the First Methodist Church. Addresses of welcome will be made by the following persons: Rev. Harcourt W. Peck, for Southern California Methodism; Rev. Alfred Inwood, for the district representatives; President George F. Howard, for the University of Southern California; Rev. Byron H. Wilson, for the Methodist Hospital of Southern California; Rev. James J. Reynolds, for the Women of the Conference; and Egerton Shore, for the Los Angeles Missionary and Church Extension Society; Mrs. I. J. Reynolds, for the Women of the Conference; and Bishop W. R. Lambuth, for the Methodist Episcopal Church, South.

Help Us Serve You.

Plan To Bolt.

(Continued from First Page.)

CITIZENS OF WHITTIER have conferred with County Counsel Hill on the legal procedure necessary for a town to follow in withdrawing from one county and joining another. He pointed out that such action would have to be authorized by a special act of the State Legislature. Following is the section of the State Constitution which governs the step contemplated by Whittier and her neighbors:

The Legislature by general and uniform laws, may provide for the alteration of county boundary lines and for the foundation of new counties, provided, however, that no new county shall be established which shall reduce any county to a population of less than 20,000; nor shall any line thereof pass within five miles of the extreme boundary of the city or town in which the county seat of any county is situated. Every county which shall be enlarged or created from territory taken from any other county shall be liable for a just proportion of the existing liabilities of the county or counties from which such territories shall be taken."

CAN'T SHUN OBLIGATION.
The last part of the clause makes it clear that none of the communities which are now considering transferring their allegiance could avoid any of their present obligations by making the change. Whatever share of the debts of the county is saddled upon the towns must be carried by the towns, and the same rule applies to the new counties.

The movement in Long Beach for a new county to be established by that city's fear of the domination of Los Angeles in the case of the suburbs of the city, has been stated in the case of Pomona and Long Beach should be formed. Whittier, by reason of its location, probably would be taken out of Los Angeles county automatically and be included in one of the other of the new counties.

Whittier doesn't know at present whether five years hence she will be in Los Angeles, Orange, Pomona or Long Beach county. She considers the situation interesting, since a change of some sort is probable.

Accidental?
"MOVIE" ACTOR HAS SKULL FRACTURED.
FOUND UNCONSCIOUS IN ALLEY AT REAR OF HOTEL.

Police believe he fell from fire escape on second floor, but Surgeon at Receiving Hospital Says Injuries Probably Were Inflicted by Blunt Instrument.

Charles Cummings, 32 years old, a well-known motion-picture actor, was found unconscious in an alley in the rear of the Stratford Hotel, No. 317 South Flower street, at 2 o'clock yesterday morning. He was suffering from a skull fracture of the skull and other serious injuries.

Conflicting statements of how Cummings received his injuries were made by the police and surgeons at the Receiving Hospital. According to detectives, the actor got them by falling from a fire-escape on the second floor of the hotel. Dr. Kane of the Receiving Hospital, however, says they were probably inflicted by someone who used a blunt instrument.

After being treated at the Receiving Hospital, Cummings was taken to the Clara Barton Hospital, where it was said last night his condition was very serious.

The actor's groans were first heard by Mrs. Catherine Fisher, a maid at the Santa Monica Hotel, who called J. R. Eaton, a clerk, who telephoned for the police ambulance.

Before he was taken to the hospital, Cummings regained consciousness for about ten minutes, but was unable to disclose the cause of his condition, which immediately preceded the accident.

He said he dined early Saturday evening with some friends at a cafe and shortly after 11 o'clock started to walk to his home at No. 219 North Flower street, which is about one block from the Stratford Hotel.

Records of the city and county show that Cummings walked to the second floor of the building and had probably been sitting on the fire-escape, lost his balance and fell to the ground, a distance of about twenty-five feet.

ON RAIL LEASE.
Word was received here yesterday that the State Railroad Commission has dismissed, without prejudice, the application of the Holton Inter-Regional Company for permission to lease certain tracks of the Southern Pacific near Seely, Imperial county.

Suppose you were to leave your widow \$5,000 in cash.

—do you realize that this would be the last long she depended upon for income? Invested at 4% it would yield only \$200.00 a year or \$16.00 a month—provided, of course, she didn't lose it entirely by an untimely investment.

But suppose you left her an income of \$50 Per Week—and that nothing could stop the income during her entire life—wouldn't you feel easier in mind regarding her future? Wouldn't you feel as though you had done your duty by those who trust and depend upon you?

That is exactly the way the new Pacific Mutual Multiple Protection Policy INSURES YOUR INSURANCE and protects your family. Should you die by ACCIDENT—your estate gets \$5000 EXTRA in cash.

And the SAME Policy also PROTECTS YOU WHILE YOU LIVE AGAINST Sickness Disability Accident Old Age

If you are sick, no matter how long, it pays you \$50 per week.
If you are disabled permanently, it pays you \$50 a month for life.
If you are hurt in an accident, it pays you \$50 per week.
If you are old, it pays you a monthly income as long as you live.

THE COST?
—only about 6c a day per thousand of insurance, depending on your age.

Southern Pacific Helps Advertise Our Forest Reserves.
Posters, issued by the National Forest Service, are being distributed to all Southern Pacific agents to be displayed on station bulletin boards.

Spent your vacation in the mountains? Where you will be on your own property, is the invitation they bear to the nature lover.

Thirteen forest reserves are indicated on a relief map by arrows, and identified with their chief attractions. Trinity forest is known as a "game refuge." Klamath for the river Indians, Shasta for Mt. Shasta, Modoc for mule deer, Lassen for its active volcano, and Clear Lake for the canyon, Tahoe for its lake region, Stanislaus for the big tree groves, Sierra for Hunting Lake, Sequoia for Mt. Whitney, Santa Barbara for Sespe Gorge, Angeles for the rim-of-the-world drive, and Cleveland for San Jacinto peak.

For a nominal charge and under liberal conditions vacation seekers can obtain summer home sites in these reservations on application to the district foresters.

He said the time was near when the city would be a more depraved city. He said the time was near when the city would be a more depraved city. He said the time was near when the city would be a more depraved city.

SHOWS INCREASE IN CAR-LOADING.

Santa Fe Sets up High Mark for Freight Handling During June.

With a total of 121,472 cars at all kinds of revenue freight loaded on its lines or received from foreign connections during June, the Santa Fe set up a new property mark last month, according to figures made public yesterday.

The increase over the corresponding month of 1915, according to the Santa Fe's figures, was 3383 cars, or 2.8 per cent. For the month, by classes, follows: Stock, 8716; grain, 4549; lumber, 5417; miscellaneous commodities, 6741; oil, 5689; coal, 7824, and miscellaneous freight, 78,673 cars.

With the exception of grain and lumber, all items showed increases for the month over June, 1915.

A grass and grain fire which originated in the foothills seven miles north of here late yesterday afternoon was not controlled until late today after hundreds of men had fought it for more than twenty hours.

Between 10,000 and 12,000 acres of range feed, 500 acres of standing wheat and barley, miles of wire fence and scores of telephone poles were destroyed.

More than 150 volunteer firefighters, including many of the prominent merchants and professional men of Porterville, have been five hours to save the splendid buildings of Louis Gill, one of the wealthiest men of central California, and the White River district was not saved. No cattle were burned, and there was no loss of life.

Cattlemen of the foothills district today there is every evidence that the fire which recently has burned through the range east of here and the White River district was not controlled until late today after hundreds of men had fought it for more than twenty hours.

Incendiaries set fire some time during the night to a house on the southern Pacific freight yard, and contents being a total loss.

It is believed that the West End district is the scene of a series of fires, the sale of ore or other property in litigation territory.

Progress of the Southwest's Great Mining Revival--Latest Developments Chronicled

READY TO BUILD.

Columbia Company Finishes Preparations for Construction of Mill at Ocean Star Mine.

Option on Del Rio.

NEVADA CITY (Cal.) July 23.—The Columbia Consolidated Company has completed preparations for the building of a twenty-stamp mill at the Ocean Star mine in the Ormonde district, above Washington.

The stamps will be reinforced with steel and the mill will be equipped with modern machinery for the recovery of a maximum gold content. A large electric generator will be installed to furnish power for the Ocean Star and Columbia plants. Much other equipment will also be installed.

Development at both the Ocean Star and Columbia mines is being vigorously prosecuted with splendid results. At the Columbia the team with a large tonnage of profitable quartz exposed. The company recently expanded its holdings in the district by the acquisition of about 150 acres of patented ground.

The Columbia mine is being developed by the installation of a five-stamp plant, electric hoist and compressor. A considerable tonnage of good ore has been developed and is being shipped both from the mine and from the mill.

The Ocean Star mine is being developed by the installation of a five-stamp plant, electric hoist and compressor. A considerable tonnage of good ore has been developed and is being shipped both from the mine and from the mill.

CONTROL MAY PASS TO WHITE CAPS MINE.

TONOPAH (Nev.) July 23.—The Nevada First National Bank, acting for the preferred stockholders of the Tonopah Consolidated Gold Mines Company, instituted foreclosure proceedings against that company.

This action is brought on a deed of trust made in August, 1909, for the benefit of the preferred stockholders, representing 50,000 shares. This is regarded as the first step of the White Caps to gain control of the property for the purpose of adding it to their estate.

Mr. Planett is a member of the G. A. R., having served with distinction with the One Hundred and Thirty-third and One Hundred and Fifty-sixth Regiments of Indiana Volunteers. When congratulated on his service for his country and his bravery, he modestly disclaimed any honor and said: "It was my dear wife, here, who was truly brave, and she remained at home with our four little children and in those days, before the telephone and the telegraph had become common, there were days and nights of agony after the battles until the results were known in the northern homes."

Mr. Planett has a few common sense rules of conduct for a long life, and among them is: "Do what you like, eat what you like, the greatest happiness is not in always doing what you like, but in liking what you do."

He retired from business a number of years ago, but still takes an active interest in affairs. He is as straight as an arrow and the light of youth still burns brightly in his mild blue eyes. He has used tobacco all his life and said: "Time when one could get a pack of whiskeys for 6 cents, but I did not buy them. However, I believe in perfectly honest business and would not curtail anyone's privilege."
